

## **Simplifying technology for social-purpose organizations**

**Development sector professionals first, IT Professionals later**

## Who we are?

Our mission is to empower social purpose organizations in their digital transformation journey by offering affordable, integrated, and customized tech solutions.

We are a diverse team of 150+ committed professionals with a blend of technology and social impact expertise.

Our commitment is to develop technology that aligns with each organization's unique needs, enabling them to achieve their goals and amplify impact.

### Our Approach

We combine deep understanding of the social sector with technological expertise to address grassroots challenges. Our focus is on creating solutions that are not only affordable but also scalable, empowering organizations to drive lasting change.

#### Social Sector Priorities

- Theme and Stakeholders' specific needs.
- Contribution to Sustainable Development Goals.
- Built with a grassroots perspective.
- Support governance and compliance.

#### Technology Priorities

- Ease of use and deployment.
- Support change management and ensure adoption.
- Problem-solving approach with custom-led solutions.
- Prioritise open-source and no-code low-code platforms.

We solve

## Challenges

*at project and field level*

How do I collect data of 5,000 farmers in Maharashtra?

How do I make compliance reports of 10 NGOs in the same format?

How do I reach 100,000 people online and educate them about government schemes?

How do I track progress of Students in a small village in Rajasthan ?

We solve

## Challenges

### *at organization and program level*

#### CSRs

How do I monitor and evaluate different programs across different organizations and then create compliance reports?

#### NGOS

Why is it challenging to track beneficiary-level data and how do I tell a story from it?

#### Government Organizations

How do I digitize schemes and track their adaptability in the targeted audience?

#### Research Organizations

How can I collect offline data in remote villages and how do I visualise this data?

# Needs of Social Purpose Organizations

## Program Management

- Process workflow mapping.
- LFA and Indicator tracking.
- Gantt Chart and Work Plans.
- Budget and Fund Tracking.

Dhwani RIS has built/supports  
implementation of the following  
Tech Platforms for the  
development sector organisations

# Platform for Donors & Implementors

Simplifying donor, grant, proposal and project management with mGrant, a web-based solution streamlining fundraising, proposals, project frameworks, reporting, compliance, and many more.

It is a multi-stakeholder platform that supports all functions, work modules, project mapping, operations, and executive decision-making.

It comes with several built-in features and capabilities and is designed to be flexible, user-friendly, and intuitive, ensuring that it can adapt to your unique needs.

## SaaS Scale and Impact

<b>500+</b> Donors	<b>3,300+</b> Partners	<b>3,000+ cr.</b> Budget	<b>15,000+</b> Projects	<b>500+</b> Districts	<b>2,500+</b> LFAs
-----------------------	---------------------------	-----------------------------	----------------------------	--------------------------	-----------------------

For Grant Seekers			For Grant Givers			Use Cases
Compliances and Reporting	CRM for Fundraising	Vendor Management	Compliances and Reporting	Partner Management	Vendor Management	Track Budgets & Fund Utilizations
Donor Management	Fund Management	Data Collection	Proposal Management	Grant Management	Data Collection	Track LFAs & KPIs
Project Management	Learning Management	Dashboards & Reports	Project Management	Learning Management	Dashboards & Reports	RFP led Partner Onboarding
						Track Partner compliance & performance
						MCA Compliance- Impact Assessment, Action Plan, Form 2.
						Engage multiple donors and partners

## Features

Mobile & Web friendly	Legacy Data Upload	Reminders & Notifications	Multi-user & Super Admin	Geo-Tagging
Multimedia Support	DIY reports	Real-time & Intuitive Dashboards	API and Integration Ready	Bhashini - Multilingual

# Platform for Implementors & Assessors

Low-code/no-code platform for quick, offline data collection and monitoring in multiple languages. It converts data into real-time insights for informed decision-making.

The project-tracking feature is a one-stop platform encapsulating dashboards, easy data migration, a survey builder, training sessions, and more. This also makes it a perfect platform for Project Assessments and Audits (Need, Baseline, Midline, Impact, SRoI, etc.).

The platform can get integrated into mGrant as an extension and value-added benefit.

**300+**  
Organizations

### Process and Use cases

 Create Profiles	 Collect Data	 Track Progress
 Crops Management	 Assets and Equipment	 Pre-Post Assessments
 Household Mapping and Service Delivery	 Student Tracking and Management	 Field Worker MIS and data management

### Key Features

 Multi-Lingual	 MIS Dashboard
 Form Builder	 GPS Enabled
 Mobile Based (supports offline data collection)	 Bulk data upload

# Platform for Capacity Building

A highly configurable, DIY platform for delivering, tracking, and documenting tailored e-learning courses.

Our platform is designed to facilitate and enhance learning engagement through multimedia content, progress tracking, and, most importantly, personalized learning paths that cater to individual learning needs.

The platforms support scalable learning environments, allowing institutions or organizations to manage larger numbers of users, courses, etc. , scale.

30+

Organizations

Other open-source platforms:

## Use Cases

Training

Capacity building

## Knowledge and awareness building for :

Students

Health & community workers

Farmers

Project staff

Trainers

Adolescents

Young adults

## Key Features

Personal progress track

Live & recorded content delivery

Creation and tagging of multiple courses

Monitor progress

User Control access

Conduct learning assessments

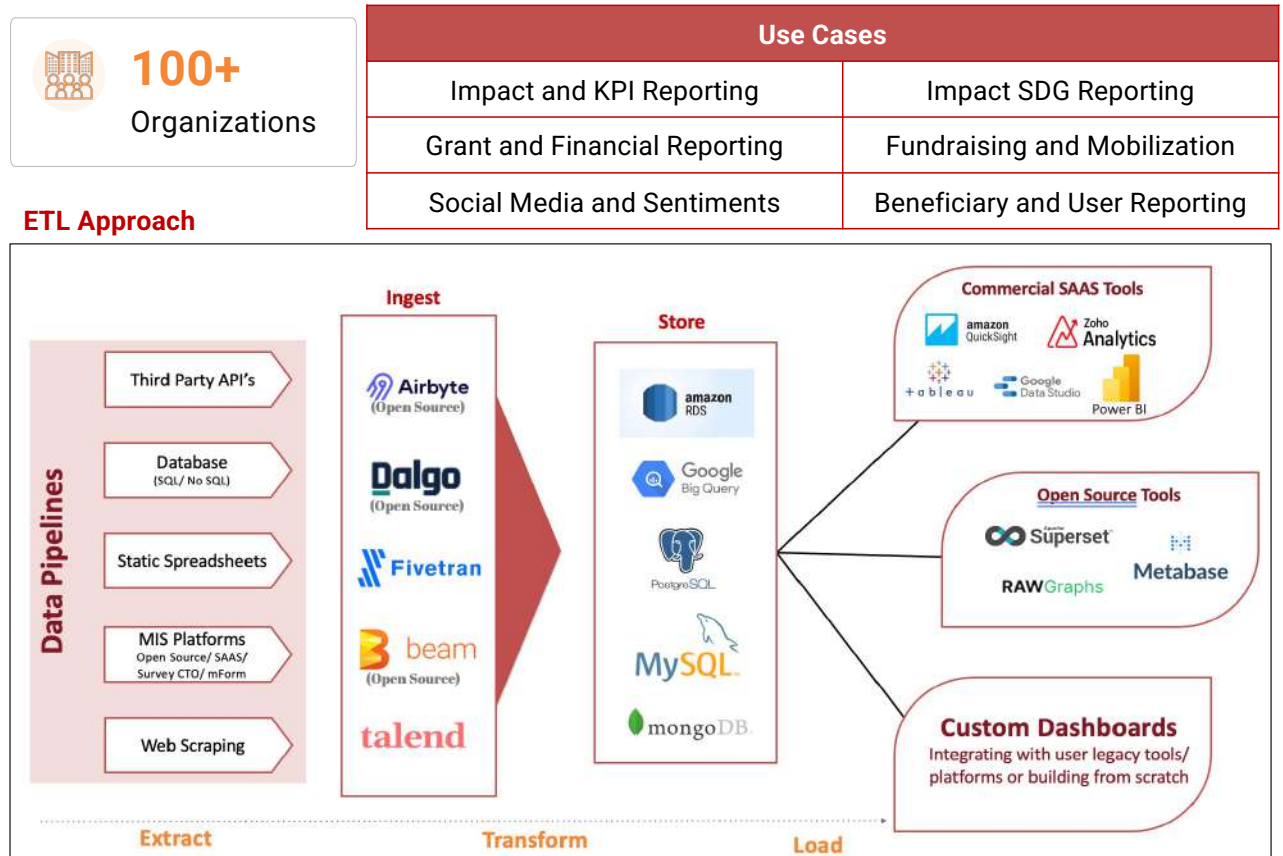

# Decision Maker's Tool

## Dashboard as a Service (DaaS)

An all-in-one solution for customizable data visualization and analytics. Gain real-time insights through user-friendly dashboards tailored to your organization needs, easily empowering informed decision-making.

Our ETL Approach, combined with the capabilities of analytical tools, covers everything from data pipeline creation to dashboard setup, ensuring seamless integration.

Scalable and secure, our service grows with your organization while providing up-to-the-minute analytics.

Chatbots

# Communication & Outreach Tool

Our platform allows seamless integration with WhatsApp, which is accessible on both Android and iOS apps. This ensures effective and easily reachable communication on a popular messaging platform.

With our user-friendly interface, organizations can streamline interactions, provide instant responses, and gather valuable feedback around the clock. Enhance engagement and improve outcomes with our comprehensive chatbot solution, tailored to meet the unique needs of your programs.

Credentials

## Organizations and Themes

We have designed and deployed solutions across organizations, stakeholders and themes in the social impact ecosystem. Experience highlights are captured on the subsequent slides.

Organizations such as *Government, Multi-lateral and Uni-lateral, Philanthropy, Corporate CSRs and Foundations, NGOs, etc.*

Stakeholders such as *Women and Girls, Farmers, Children and Adolescents, FPOs and SHGs, Frontline workers, Educators and Administrators, etc.*

Themes such as *Agriculture and Livelihood, Environment, Healthcare, Skilling, Education, Governance, Inclusion, etc.*

# Government and Multi-laterals

01

## dCRS, Platform to analyse Death and Autopsy data

**Work:** Platform for Medical Officers to analyse and review data on the cause of death for people who died under specific circumstances.

**Scale:** Tamil Nadu

02

## Producer Group Grading, Business Planning and Accounting/Transaction

**Work:** Web MIS, Mobile App and Custom Dashboards

**Scale:** Pilot across 50 PG in UP, MP and Jharkhand

03

## Standardized Financial data dashboard of Indian cities

**Work:** Portal development for 4000 urban local bodies to enable the sharing of financial data covering expenditure and revenue with the public

**Scale:** Pan India

04

## Status of water supply and water quality in rural households

**Work:** Mobile app, custom dashboard, custom reports for tracking of field progress of Jal Jeevan Mission activities

**Scale:** Pan India

# Philanthropy and Family Foundations

01

## Student Enrollment & Classroom Activity Reporting MIS

**Work:** MForm Mobile App & dashboard for student enrollment, batch creation, attendance, academic performance monitoring

**Scale:** Uttar Pradesh

SHIV NADAR FOUNDATION

02

## Dashboard for process tracking

**Work:** Web MIS, Mobile App and Custom Dashboards

**Scale:** Pan India

03

## Skill Development MIS

**Work:** App, MIS, Dashboards, Track student journey from mobilization to placement

**Scale:** 10,000+ students per year

04

## Data Driven Governance

**Work:** Custom Mobile App, Web MIS, Custom Dashboards

**Scale:** 25,000 villages and 20 lakh beneficiaries

TATA TRUSTS

# Non-Profits

01

## Jan Sahas

**Work:** Develop a mobile application as 'Jan Sathi' to empower migrant workers through simple eligibility checks on government schemes and benefits. With multiple languages & offline functionality, it enables last-mile workers.

**Scale:** 65+ lacs migrant households

02

## Transform Rural India

**Work:** Custom solution to enable Farmers and Agri-entrepreneurs to understand their requirements and provide the necessary support through data analytics, to improve income and livelihood.

**Scale:** 1.5+ lac farmers

03

## Educate Girls

**Work:** Integrated system to enhance organization's ability to secure funds for current and future plans through improved donor and market intelligence and maintain and expand donor database.

**Scale:** Pan India

04

## Swasti

**Work:** Develop technology solution for Walmart Vriddhi program to manage and onboard MSMEs, supporting their overall development. Built on CRM frame, the solution provides mobile app for upskilling as well.

**Scale:** 20,000+ MSMEs

05

## OneStage

**Work:** Deploying mGrant solution to automate and digitize project management and donor management across verticals for effective monitoring, reporting, communication, etc. for project activities and fund utilization.

**Scale:** Pan India

# Corporate CSR

01

## Amazon CSR

- mGrant Platform for CSR lifecycle management
- Setup of M&E framework for partner NGOs
- Setup of survey tools on digital platforms
- Analysis of impact assessment data and recommendations to client
- Pan- India

02

## Godrej Group CSR

- Built a complete platform to manage all their CSR projects across 5 group companies
- NGO management and ensuring MIS compliance (Training & Follow up)

03

## HDFC Bank CSR

- CSR Lifecycle mGrant platform M&E framework digitization
- Approvals & permission workflows
- Mobile App for field data reporting
- Used by 300+ NGO partners

04

## Reliance Foundation

- Skilling Lifecycle Management Portal
- Student onboarding, registration, attendance, placement tracking
- Mobile App, Web MIS, Dashboards

05

## Mahindra Group CSR

- mGrant Platform for CSR lifecycle management
- Management of all CSR projects across 30+ group companies
- Grant & Impact management
- NGO due diligence, Schedule 7 Reporting, Annual Action Plan
- Employee Volunteering Module

# Agriculture and Livelihoods

01

## Livestock ERP System for Goat and Poultry

**Work:** Web MIS, Mobile App for Profiling, On Demand and Scheduled Animal Services Delivery, Stock Management

**Scale:** 200 Pashu Sakhis and 25,000 Livestock Families

02

## Bihar Agriculture Growth & Reform Initiative( BAGRI ) MIS

**Work:** Developed a web dashboard to track enrollment, trainings, financial performance, market linkages of FPOs & Producer groups

**Scale:** 67000+ farmers, 3000+ PGs, 20+ FPCs

03

## Paydash

**Work:** Custom solution for web scrapping attendance/muster roll/payments data from MGNREGA portal and expedite the payment process to MGNREGA workers

**Scale:** 35000+ GPs in MP, Jharkhand & Bihar

# Agriculture and Livelihoods

04

## Price Derivation Portal

**Work:** Web MIS, Mobile App;  
Developed a Price Derivation portal to derive daily collection center price

**Scale:** 35 Collections centers across 10 cities

05

## Crop Insurance Digitization

**Work:** Awarded grant by The World Bank, for innovative & integrated digital solution for crop insurance claim settlement, developed for GIZ India

**Scale:** Karnataka

06

## QSure

**Work:** Web MIS, Mobile App; Quality Management System for repackaging of Pulses

**Scale:** 10 Repackaging Centers of BB

# Environment and Climate Change

01

## Usharmukti

**Work:** Web Scraping of NREGA portal, Dashboard and reporting using BI Tool; Watershed level tracking and monitoring of NREGA natural resource management works

**Scale:** 2,000 micro watersheds across 54 blocks of West Bengal

02

## Impact Assessment Of Water Conservation Technologies

**Work:** Conducting impact assessment of ground water recharge interventions on farmer's socio-economic growth

**Scale:** 150 farmers in 3-4 districts of Maharashtra

03

## Narmada Landscape Restoration Project

**Work:** Setup of data collection app and dashboard for impact assessment of the project

**Scale:** Madhya Pradesh

04

## Pavagada Solar Park Impact Assessment

**Work:** Setup of data collection app and dashboard for impact of the solar park on farmers in drought prone area

**Scale:** Farmers around Pavagada Solar Park in Karnataka

# Healthcare

01

## Tribal Health and Nutrition Portal ( Ministry of Tribal Affairs)

**Work:** Web Portal; Data Upload Panel Public Website and Dashboards to map Nutrition and health related vulnerabilities for Tribal population in India

**Scale:** Pan India

02

## Digital Life Care Web Portal and App

**Work:** Mobile app for screening and management of non-communicable diseases, by ASHA Sub-Centres and PHC staff

**Scale:** Pan India

03

## Personalized HIV Patient Counselling App

**Work:** Web Portal, Mobile App; for assisting doctors with personalized suggestions based on past & present health data of each HIV patient

**Scale:** ART Centers in Mumbai

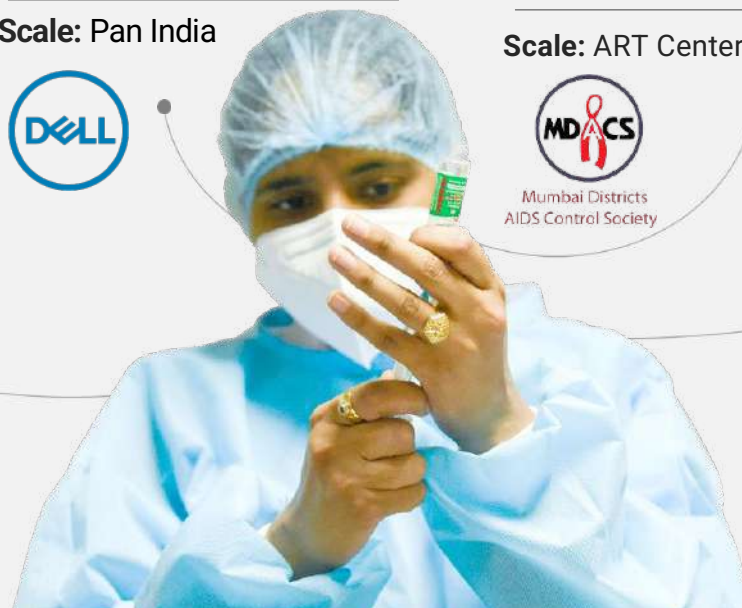

04

## RISHTA

**Work:** Web Portal, Mobile App; for profiling and counselling management of adolescents, for their Sexual & Reproductive Health

**Scale:** Farmers around Pavagada Solar Park in Karnataka

# Healthcare

05

## Malnutrition Tracking Platform

**Work:** Web MIS, Dashboards & Mobile App for profiling & tracking malnutrition status of children, women & patients in healthcare facilities serviced by client

**Scale:** Pan India

**adani**  
Foundation

06

## Nutrition Fortification Dashboard

**Work:** Public Website and Dashboards for tracking state, district wise crop production, nutrient demand & supply data; simulation tool for policy researchers

**Scale:** Pan India

**TATA TRUSTS**

07

## Adolescents Health Tracking Platform

**Work:** Web Portal, Mobile App; for periodic tracking of sexual, reproductive health awareness & access related issues of adolescent boys & girls

**Scale:** ART Centers in Mumbai

# Skill Development/Employment

01

## Skill MIS

**Work:** MIS, App and Dashboards; Mobilisation, Training, Placement, Post Placement, Follow Up Activities

**Scale:** 25,000+ Students per year

02

## Asaan MIS

**Work:** MIS, App and Dashboards, Mobilisation, Training, Placement, Post Placement, Follow Up, Attendance, Course curriculum tracking

**Scale:** Pan India

03

## ROTI MIS

**Work:** MIS; Registration, Training and Placement of women beneficiaries

**Scale:** ART Centers in Mumbai

04

## ETASHA Career Counselling app

**Work:** Highly Interactive web and mobile responsive app for Haryana govt school students' career counselling

**Scale:** 5000+ school girls in 9th-12th grade in Haryana govt schools

# Education

01

## Learning Management System for Teachers

**Work:** Web MIS, Mobile App for content sharing, assessments, live training sessions, performance tracking of primary school teachers

**Scale:** 1500+ teachers in Bihar

02

## School Admissions MIS for Haryana Govt

**Work:** MIS for Haryana Govt for end-to-end digitization of admissions under Rule 134 A of the Haryana School Education Rules, 2003

**Scale:** Haryana

03

## Student Enrollment & Classroom Activity Reporting MIS

**Work:** MForm Mobile App & dashboard for student enrollment, batch creation, attendance, academic performance monitoring

**Scale:** Uttar Pradesh

SHIV NADAR FOUNDATION

04

## Teacher Training & Feedback Sharing App

**Work:** Web MIS, Mobile App for content sharing, assessments, live training sessions, and feedback sharing by the Punjab govt. school teachers

**Scale:** Punjab

# Governance

01

## Village Development Plan

**Work:** Digital VDP; Village survey and need assessment, Auto VDP Preparation, SDG Mapping

**Scale:** 315 villages in Jharkhand and Orissa

**TATA TRUSTS**

02

## Technology Feasibility Study

**Work:** Technology Feasibility Study for Citizen Rights Initiatives of Omidyar's funded by NGO Jan Sahas

**Scale:** PAN India

  
OMIDYAR NETWORK

03

## City Finance Portal

**Work:** Portal Development; All the 4000 Urban local bodies to upload their Financial Data (Expenditure, Revenue in public domain)

**Scale:** 4000 Urban Local Bodies across India

  
JANAAGRAHA, CENTRE FOR CITIZENSHIP & DEMOCRACY

04

## Citizen Information Service Center

**Work:** Call center; Toll-Free Integration, Call Recording, Tele caller wise reporting

**Scale:** 50,000 calls handled via toll-free number

  
SEHGAL  
FOUNDATION

# Gender Inclusion and Adolescents

01

## 10 To19 Adolescents Collaborative M&E dashboard

**Work:** mForm app for survey of adolescents in Jharkhand & dashboard for tracking of their progress on various outcomes related to health, education, inclusion, safety

**Scale:** 1200+ adolescents in Jharkhand state

02

## Grievance Management System for Females

**Work:** mForm app for profiling & monitoring grievances reported by gender grievance support desk

**Scale:** 1000+ women SHG members in Odisha

03

## BMGF Funded Project For Nutrition Assessment of Women In Agriculture

**Work:** Field surveys, mForm app and dashboard for baseline & midline studies of nutrition availability and consumption by women farmers in eastern UP districts

**Scale:** 400+ women farmers in UP

# Financial Inclusion and Govt Scheme Entitlement

01

## Geo Mapping Application for providing risk assessment support to member MFIs

**Work:** Custom Mobile App and MIS for data collection, approval, meeting minute capturing and location wise risk assessment for loan distribution by member MFIs of MFIN

**Scale:** Pan India

02

## Financial Literacy Training, Activity planning and tracking workers

**Work:** mForm app and dashboard for content sharing, training assessments and field activity data collection from field workers involved in financial inclusion programs

**Scale:** Pan India

**CRISIL**  
Foundation

03

## Govt Scheme Entitlement Tracking

**Work:** mForm app and custom dashboard for profiling beneficiaries and tracking delivery of govt entitlements as per eligibility

**Scale:** Jharkhand
